Introduction

Attex Steel fabricators was established in 2009, as a mechanical engineering firm, heavy Steel Fabrication Firm & General building construction Company and has become a reputable player in transformation of the Kenyan fabrication industry professionally. Over the years we have completed numerous Commercial & Industrial Projects of National Importance.

Since 2009 Attex continues to strive for providing reliable, efficient & cost effective projects to many Local and Multinational Companies on East Africa Basis. We are committed to follow engineering code of practice/standards with HSE at the top and client's ultimate satisfaction.

Attex proudly acclaims to provide the best services and can undertake the responsibility to design, execute and manage the whole project.

Our commitment with client is also backed up by extensive technical support, after sales service and comprehensive level of stock, for immediate response to customer's requirements. If you have any queries for the pre-qualification of our company, please do not hesitate to contact us. We will be really glad to assist you.

Thanking and assuring you of our best services and Co-operation.

Kind regards
Yours faithfully,
Attex Steel Fabricators Limited

Stephen Mwangi
Director
